Need your sleep apnea patients tested?

If your office is interested in increasing revenue utilizing your existing patient base, then we have a solution for you. Sleep Apnea is a serious issue in our population with *nearly 80% remaining undiagnosed*. Through home sleep testing, your practice can screen patients for sleep apnea and get them tested in just a few days. Whether you're a specialty physician or general practitioner, we can help custom tailor a program that fits your practice.

Prevalence of Sleep Apnea
 Obesity = 77% | CHF = 76% | Pacemakers = 59% | Diabetes = 48% | Hypertension = 37%

To learn more about how you can set up a HST program in your office, simply visit our website to register your practice to receive more information.

Disclaimer
 This oximetry test has been reviewed by a tech for artifact and validated that the test results are that of the patient. This oximetry report has been prepared by a Medicare Certified Independent Diagnostic Testing Facility (IDTF) and the HME supplier has had no contact with the raw data used with this oximetry report; the HME supplier acted solely as the courier of equipment to and from the patient's home to conduct this prescribed oximetry test. The auto generated messages for oxygen qualification are strictly based on Medicare LCDs, clinical judgment and review should be used to determine if the patient has a diagnosis that meets oxygen qualification as well. These auto messages are not intended to diagnose any disease or determine if the patient meets medical necessity for oxygen therapy. Referring providers should review this oximetry test in conjunction with clinical records for this patient prior to prescribing oxygen therapy.

Fax Transmission Disclaimer
