

# Conquer Sleep Apnea...

Get a home sleep test in the comfort of your own bed and quickly know if sleep apnea is prevalent.

**Covered by most  
insurers & Private  
Rates at only \$225!**

Sleep apnea remains a highly undiagnosed sleep disorder when in combination with other conditions, can lead to harmful consequences. Through HST, patients can be tested quickly and conveniently in their own bed.

**Why Home Sleep Testing (HST)?** HST is a convenient & affordable way to have your patients tested & initiate PAP therapy w/o having your patient's leave their home. Through our DirectMail program, patients will receive a test kit in 1 – 3 days and have final results to your office within 7 – 10 days.

**Is HST right for patients?** There have been many successful HST studies showing the benefits and effectiveness of HST. With our support team, patients have access to sleep techs, instructional videos and detailed, illustrated instructions included in the kit.

**How do I start a HST program?** With our dedicated support team, we will set your office up with tools & resources that will allow you to have a successful HST program. Contact our office and we will work with your office each step of the way.

**Cost-effective...**

**Convenient...**

**Patient Preferred!**
